France.

On the result of the *plebiscitum*, the *Neue Frie Presse* of Vienna, May 10th, makes the following comments:

It has been proved in the clearest manner that, where intelligence, wealth, and industry are collected together in the towns, the Empire has lost ground, and that it only finds support where the peasant, sunk in ignorance and ultra-Conservative stupidity, and under the rod o correction of functionaries appointed by the Government and of the clergy, accepts every appeal of the State with submission and faith, unconditionally ratifies it.....With reference to the result of the *plebiscitum*, it is less important to count the number of votes than to weigh them against each other; and, if it is true that the three millions of *noes* and abstentions represent for the most part the intelligent populations of the towns, they far outweigh the vote of the peasant electors. It will by this vote be officially ascertained that the Empire has against it in the non country parts of France a compact mass of three millions of electors .....This is a fact of fearful import; and how a *régime* can under such circumstances last and, as the emperor said in his recent proclamation, descend in peace from father to son, is a matter on which we shall doubtless, in the next few days, find many eloquent, but as surely no convincing, articles in the Imperialist Paris journals. The 8th of May and its result will contribute to lead the whole country to the clear conviction that France has arrived at the threshold of a fundamentally new formation of her political destinies.

On the same subject *Der Wanderer*, of Vienna, May 10th, says:

The moral to be drawn from the whole plebiscitary farce is a sad one for Imperialism. In spite of all liberal or seemingly liberal concessions, the intelligent part of the nation has turned away from the Emperor. The important towns with Paris at their head, have voted *no* by a great majority. Not only the *bourgeoisie* but also the working classes of the capital and of the principal centres of trade industry, appear to have taken part against the Emperor, who, according to the result of the *plebiscitum*, can find supporters only in the peasantry and clergy. He must continue anew in his scarcely interrupted concessions to these two classes, and must endeavour to keep them, and not his irreconcilable opponents, in good humour. To be willing and able to do this, and at the same time seriously to adopt the Parliamentary system, is a bare impossibility, as Ollivier will be forced to acknowledge, even if he really and seriously desires the Empire with liberty. The Emperor's course now is, to reign on as long and as well as he can. The expression adopted by him in his last speech from the throne—"I answer for order; you must help me to establish liberty," should now be read—"I want a security for the maintenance of order, and liberty must look out for itself." Such is sincerely and truly the significtion which the result of the *plebiscitum* has for the Emperor, in spite of the millions of peasants and priests who have voted in his favor.

Victoria and Montrial Railway.

Dr. Helmcken in a recent speech at a public dinner in Canada gave utterance to the following: "I may as well tell you in all candor that while I am disposed to accept Confederation, I accept it, and the people of British Columbia will accept it, but only on this condition: that through the exertions of the people of the Dominion a railway from the Atlantic to the Pacific is the result." In our opinion he has put the case in such a way as would have some effect on his hearers; but at the same time he has spoken so guardedly as to when Confederation would accomplish the result that so ample margin is allowed so as to have that great work completed sometime between five and fifty years hence. Now without discussing at this time the question whether the people will accept Confederation with or without the railway, we shall try and assist the people in forming a correct conclusion by giving them some data on the subject. To do so then let us say that the eastern terminus of this railway is not Fort Garry, or Lake Superior, but Montreal; and the western terminus, Victoria. Capital, Engineers and navvies and the iron being given, the whistle of the first through locomotive might be heard in Victoria at the end of five years. But the whistle of the first through locomotive depends on capital,—and the capital necessary to construct this great northern highway will be at least $150,000,000. The American transcontinental railway which is only about two-thirds as long as our road cost $100,000,000. Now $150,000,000 is a vast sum of money. The interest on that amount would be at 6 per cent. $9,000,000. The wear and tear of the road would be 5 per cent. per annum, that is $7,500,000 a year. The running expenses would be 3 per cent. or $4,500,000. Here, then, are $21,000,000 a year that have to be raised annually to pay interest, wear and tear, and current expenses. Now who will find the money to build it. We frankly confess that we don't think Canada is willing to go into debt $150,000,000 to construct the road. If she has the credit, her statesmen could not consent to borrow the money. Her whole revenue, to-day, is $14,000,000, and to construct the road would require a revenue of $35,000,000. The people would not submit to the doubling of taxation, and no finance minister would attempt it. It is true there are freight and passengers, but, there are not more than 50,000 people west of Ottawa river to Victoria, on the line of railway. All the receipts for freight and passengers and Asiatic trade would not exceed, for some years, $2,000,000. Still there would be $19,000,000 a year to meet. If the money were borrowed at 4 per cent. instead of 6 per cent. $5,000,000 would be saved, and reduce the $21,000,000 to $18,000,000. If the reduction of $3,000,000 be added to $2,000,000 for freight and deducted from the $21,000,000 the annual liability would be $16,000,000 per annum. That amount we believe is a far heavier charge than Canada dare to incur to construct the road within the next five or ten years. Some other scheme is more likely to be adopted. If a private company undertook it and got the Canadian Government to guarantee 4 per cent per year on $150,000,000, and grant twenty miles of land on each side of the road, it might be done; but it will be difficult to get the company to build the road and keep it running The utmost stretch of land suitable for settlement and belonging to the company, on the route, would not exceed 1600 miles long by 40 miles wide. That would give an area of 64,000 square miles, or 40,960,000 acres. Now, it is difficult to imagine more than 500,000 acres being sold annually, at $2 an acre; and if so, the return would be $1,000,000 a year. The latter amount, added to freight $2,000,000, and Canadian subsidy $6,000,000, would make $9,000,000, and an annual deficit of $9,000,000 or $12,000,000. Now, what company will take the risk of making a deficit annually equal to one fifteenth of the capital invested in the road? If such a company can be found, Canada might without very great difficulty pay $6,000,600 by issuing bonds at 6 per cent interest, and 1 per cent sinking Fund, which would reduce the annual liability to $420,000 per year, which with the increase of population would be scarcely felt. But it must be recollected that every year $6,000,000 would have to be paid; and if funded, then the annual liability would be increased by $420,000 every year. If the guarantee were for twenty years, then Canada would have to provide in the twentieth year $8,400,000 for interest and Sinking Fund, and still have the balance of the funded debt to meet, after being freed from the guarantee to the company. By some guarantee to a company the road may be built, but as a Government undertaking, it is not likely to be built very soon.

Sooke Trail.

The oldest white settlement on this Island, except Victoria, is Sooke. It has a large extent of very valuable land for agricultural or grazing purposes. Its forests and lumber have an established reputation. From six to a dozen vessels—ships and brigs—loaded there last year for foreign ports. It has enough children for a school, enough men to work considerable land, run a sawmill, and grow stock. It has besides that, good salmon fisheries. One day it will be a place of great resort as a watering-place. The harbor is only about twenty miles from Victoria by land, or twenty-five miles to the seashore. There is a good road for eleven or twelve miles from Victoria. The balance of the way is by trail—and that is what we wish to specially talk about on this occasion. We think the people of Sooke have been badly treated about this trail. Last year the enormous sum of seven dollars were expended on it. This year we are told by very fair judges of trail-making, that about seventy five dollars have been laid out on it. On reference to the votes of the Council we find that there were $300 voted for Sooke Roads. Now, what has become of the money? Cutting out a few roots, sawing off a few fallen trees, and scraping down a little dirt here and there, didn't cost $300. Again, it was estimated last year that some three hundred dollars in Road money would be on hand, to be supplemented by another sum from the general revenue. But no. Only $89 were collected last year. Possibly, a considerable sum may remain uncollected, some land-owners not paying up. But we ask what use, what inducement is there for owners of land in Sooke to pay up, if only $7 be laid out on the trail in 1869, and $75 in 1870. A *dilettante* corps of engineers from the Lands and Works department have been in that direction with a theodolite, &c., in order to get notes for map-making. Now, mapping out roads is all very well. But it appears to us to be a scandalous waste of money at this particular time. The money had far better been expended in making a good road to Sooke But we presume that the Sooke settlement must remain isolated, the settlers be dependent on canoe, or a trail not travellable in the dark, to get to and from Victoria, till the present owners of this country, located at James Bay, are paid off or show a better disposition to push the country ahead. We are not particular which of the two last things be done, but one or the other must be done very soon.

New Advertisements.

CARD.

TO THE EDITOR OF THE DAILY STANDARD, SIR:

To my surprise when I read the report of the Licensing Court proceedings in this morning's issue of your paper, I saw after my name "granted with a caution." In justice to myself I feel it my duty to enlighten the public as to what the caution was.

1st. Mr. Cameron said one of his men got drunk at my house and on his way home the horse ran away and broke his wagon.

2d. Mr. McKenzie stated that he had seven wagons stoping at my house without the drivers, who were in my house drinking. I keep a house for the convenience of the public, and I don't see why complaints should be made if drivers of teams or others should call at my house.

Your obedient servant

PATRICK EVERETT, Horse & Jockey.

Esquimalt Road, 24th June, 1870. je25 1i

Agent at Victoria.

Phœnix Fire Assurance COMPANY,

LOMBARD STREET and CHARING CROSS

LONDON.

ESTABLISHED - - - - 1782.

For Insuring every kind of Property in all parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY with which its engagements are always met by this Company are well known, and the importance of its relations with the public may be estimated from the fact that since its establishment, it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company, the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.

Rates and Particulars of Insurance may be had on application to

THOS. C. NUTTALL,
Agent,
Government treet
Opposite Masonic Hall.

SHIPPERS.

Per Str. PELICAN, to SAN FRANCISCO, June 24—J. Seitz, P. McQuade, Weil & Levy, W. Dalby, N. C. Bayley.

DEATH.

On the 24th June, 1870, at Esquimalt, Barbara Ann, wife of George Searle of Esquimalt, age 54 years. Deceased was a native of Norfolk, England, and lately of Canada West.

The funeral will take place at 1 o'clock to-morrow.

THE EMPEROR'S WINE.—Among the Wine-makers in the Champagne district of France, there is no name in better repute now, we learn, than that of Bouche, Fils & Co., of Marcuil, near Ay. Their Napoleon Cabinet wine, so called from the fact that the Emperor has long preferred it to all others, is supplanting many of the older brands in Europe and United States, and is rapidly coming into general use in British Columbia.

It is the leading wine at Delmonico's and at the recent opening of Fijux's Hotel in Waverly Place, New York, it was decidedly the favorite among the *Connoisseurs*, journalists and others who were present. Many efforts have been made by American Wine-Growers, in a spirit of honest competition, to rival "the foaming grape of Eastern France," but with limited success; and doubtless for some time to come, it will be preferred for festal occasions to any American manufacture however good. The House of Greeley & Piterre, Wharf street, has the agency of this celebrated wine.

☞ Memory presides over the past; Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the *earth* like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of spurious imitations. 1y *

A. Gilmore is still closing out the balance of his ready-made stock of Clothing, at cost. Garments made to order according to the latest styles, and at greatly reduced prices. Therefore, let your motto be to develop our resources by having your garments made to order at A. Gilmore's where perfection is guaranteed. Also, a large assortment of the best quality of Cloths, Cassimeres and Vestings on hand. Come and see me. *

ST. JOHNS' DAY.—Yesterday, being St. Johns' Day, the Masonic Fraternity of this city, to the number of thirty-five, met at their Lodge room at 10 o'clock for the purpose of celebrating the day by going to church. At 10.45 a. m, they marched from Masonic Hall, headed by Haynes' Brass Band, to the Union Church, where a very impressive sermon was preached to them by the Rev. Mr. Jenns. The text was taken from the 40th Chapter of Isaiah, sixth verse: "The voice said cry. And he said, What shall I cry? All flesh is grass, And all the goodliness thereof is as the flower of the field." Notwithstanding the wet weather, which doubtless prevented many from being present, the church was well filled, and the congregation was paid to [illegible] of the preacher. After the [illegible] the brethren returned in the same order in which they left their Lodge room.

OUTWARD BOUND.—Passengers per steamer Pelican, Captain Gregory, for San Francisco: W H Oliver, B Saunders, Capt Raymur, Mrs T Wright, Lady Franklin, Miss Crawford, S A Kinkead, W Schmidt, W J H Idman, T Kester, W Brandt, P Soule, H F rgeuson, M Ellard, J C Raymur, T Higgins, T Ashley, C H Tallin, Dr J Kellogg, E Sham, H Burns, A Gartin, D Colman, M Lehy, T Maguire, T J Murphy, T Taylor, J Parris, D McCully, W A Calhoun, H Dougan, M Doyle, D Madden, W Tyack, F F Richards, N F Adams, J T Davis, G Fletcher, T Curan, T Fitzpatrick, Loo Chee, Mrs Phipps and Child, F Bochee, T O'Brien, W Walton, M Moon, T Garety, P Moore, T Trastin, C Williams, and M Martin.

FOR SAN FRANCISCO.—The steamer Pelican, Capt Gregory, left yesterday afternoon for San Francisco direct with 53 passengers principally discharged U. S. soldiers from Alaska. Among the passengers who took there departure where Lady Franklin and niece, Mr. W. H. Oliver, Mr. R. Hall and Mr. Hebbard. A crazy man named Reilly who has been under confinement for some time in the goal was sent down on the steamer to Stockton. The police had quite a time with him to get him off. *

ENDED IN SMOKE.—This morning, about 9 o'clock, huge volumes of smoke were discerned issuing from a chimney in the Colonial Hotel. Quite a crowd of people gathered in Trounce alley to discover what was the cause of it, when they found Mons. Driard on the top of the chimney trying to extinguish the fire, which was put out without the aid of the firemen.

CARRALL.—The *Sentinel* of May 28th says: The appointment of the Hon. R. W. W. Carrall is peculiarly gratifying to his constituency, and a well-deserved compliment to the merits of our worthy representative. We are confident that the Governor could not have made a better selection for the faithful discharge of the task entrusted to the delegates.

CORRECTION.—We are requested to contradict an item which appeared in the *Colonist* of yesterday, to the effect that Messrs. Orr and Levy's tenders were accepted for supplying refreshments at the Fireman's picnic. It ought to have been the Caledonia picnic, as the firemen do not intend to call for tenders until after the 4th of July.

FOR THE MAINLAND.—The steamer Enterprise, Capt. Swanson, left yesterday for the mainland, with about 20 passengers, 100 tons of freight, and a mail and express for Cariboo. Among the passengers were Mr. H. Nelson, Mr. J. Trutch, Mr. D. Oppenheimer, Mr. Fisher, Mr. Walkem and Capt. Connup.

IMPROVEMENT.—Sooke continues to improve. Mr. Charters is putting up a fine barn. Mr. Welsh is completing a nice dwelling. The crops look well.

CENSUS.

Victoria City—Population, exclusive of Indians Males 2528, Females 1680. Total 4208. Esquimalt Town—Males 52, Females 19. Total 71. Victoria District—Males 350, Females 238. Total 597. Esquimalt District—Males 45, Females 22. Total 97. Metchosin—Males 51, Females 33. Total 84. Lake—Males 54.—Females 30. Total 84. North Saanich—Males 52, Females 21. Total 73. South Saanich—Males 77, Females 52. Total 129. Grand Total 5313.—*Colonist.*

A SCARE.—The good folks at Sooke were slightly scared when the Sparrowhawk came to anchor there. They had seen in a paper, that there were a lot of Fenians—some four thousand—who were going to make a raid on this country, and they were convinced, for a time, that the invasion was about to take place; after a little while their fears were agreeably dispelled.

SOOKE.—We are informed that H. M. S. Sparrowhawk came to anchor in the outer Sooke Harbor, on her downward trip, and remained there twenty-six hours. It was not known what was the reason of her delay; but it was presumed heavy weather outside.

AMONGST the exports per steamer Pelican yesterday we find 10 barrels of lime from the San Juan Island Lime Company, shipped to San Francisco as a sample. It is possible that this article may be a large item in our export trade.

THEATRE ROYAL.—Remember the performance at the Theatre Royal to-night, by the celebrated comedian Mr. Ellerton. The prise of admission is only 50 and 25 cents. A good evening's entertainment is anticipated. Don't forget.

THE CABLE.—Mr. Lamb, the Superintendent of the Telegraph Company, was unable to procure a steamer yesterday to proceed to lay the new cable. As soon as the Emma arrives this evening she will start to lay it. On Monday we will have telegraphic news.

THE GRAPPLER.—This vessel, which has been thoroughly overhauled and refitted with new boilers, etc., made her trial trip to Nanaimo and brought back a cargo of coal. Everything worked satisfactorily, and she made good time on the trip.

ARRIVED.—The schooner A. P. Jordan, Capt. Perry, which loaded at Sayward's mill, Saanich, with lumber for the Hawaiian Islands, arrived at Honolulu on the 20th of May, after a long passage of 32 days. She was on the berth for Victoria again.

FOR NANAIMO.—The gunboat Boxer, Commander Egerton, left Esquimalt yesterday morning, at 6 o'clock, for Nanaimo, where she will join the Zealous and go to the Fraser river.

POLICE COURT.—There was only one case of drunkenness before the Police Court this morning. The culprit was ordered to contribute the sum of 5s. toward the revenue of the colony.

THE value of exports shipped on the Pelican yesterday afternoon, amounted to about $8,000. This amount does not include goods in transit, which have been shipped from Puget Sound for San Francisco.

UNUSUALLY SHOWERY.—It is stated by an experienced gardener that more rain has fallen this summer than has fallen any summer since 1863.

"Merthyr" on the Press.

EDITOR STANDARD:—There is nothing impossible which does not involve contradiction. The establishment of a new paper in British Columbia, which shall faithfully and fearlessly portray the opinions and the wishes of the people, is a consummation which every man of candour and experience has long hoped for, and devoutly wished to see. The public, saturated and disgusted by the inane seagull screams with which they have recently been surfeited, have a right to seek relief in something more manly and consistent.

The duty of a journalist is to public opinion, what a mirror is to the human face—a correct reflex.

"Paint me as I am," said Cromwell to young Leslie, to whom he sat for his portrait; "don't leave out a wrinkle; if you do, I won't pay you a shilling." Such, I believe is, and will be, the language of the people of British Columbia, to those who profess to represent their wishes, and whose business it is to chronicle the daily history of their lives.

But, in order to ascertain the real power of the press, attention should be paid, not so much to what it says, but to the way the public listens, and believes,—to the way in which it is accepted by public opinion.

Its very vehemence and unreasoning clamor is no unfrequent by the forerunner of its entire dissolution; its contortions are often the sure sign of its danger, and almost always indicate its mental imbecility.

It will hardly be disputed, we think, that journalistic consistency, and political integrity, are unquestionably more respectable, and unspeakably more useful than journalistic ambiguity or political poltroonery that they are elements without which it is utterly impossible to achieve true greatness.

It has been said that a nation's civilization can be determined by the kind of revenge its people take for injuries received.

If this be true, it is equally true that, the intellectual status of a people may be ascertained by the amount of worthless reading matter they will tamely submit to have thrust upon them.

But luckily for this Colony her citizens possess the faculty of understanding each other, and of making others understand them too, if they wish it.

They are not disposed to blindly follow the lead of men whose attainments just suffice to elevate them from the insignificance of dunces to the dignity of bores. They are far too wise in their generation to accept as teachers, those who know nothing that it is not a disgrace not to know.

The public have realized for some time past, that there are vast financial, and Governmental reforms which are absolutely necessary to their future progress and prosperity; and I believe that you will be able to succeed in constructing a public journal which shall candidly, temperately, and successfully bring about these reforms, and at once command the confidence and support of the public of British Columbia, and of those communities with whom this Colony has a continuity of interests.

MERTHYR.

Immigration.

EDITOR STANDARD:—We have been favored in this morning's *Colonist* with a luminous effusion, from the pen of the Registrar General, Inspector General, &c., &c., on the question of Emigration. We will pass over the thanks which he seems to think the Committee on Immigration are entitled to, for their very arduous labors, and look at his proposal to bring out farm laborers, at the public expense:

"I imagine that there is hardly a farmer in the Colony who would not gladly receive help, and put his name down for one or more farm hands in case no risk or failure occurred." Now, sir, I hold that it would be all risk and sure failure to adopt any such course as indicated. Does Mr. Alston know how many farmers, if any, are prepared to employ, during the whole year, even one farm hand, and pay him the wages that would retain him in the country? To my mind a more palpable waste of the public money could not be made, than to employ it in bringing out agricultural laborers, while we have before us every day, this very class being compelled to leave the Colony, against their will, for want of employment. Men, too, who have paid their way here, as thousands have done before them, with the same results. Besides, there are thousands at present, on this coast, ready to come to this Colony, if employment could only be found for them.

What we want in this country, before we can have prosperity, or people choose it as a home, is Self Government. The people will be satisfied with nothing short of it. They must, and will have control of the public purse, and the right to see that those who, at present, consider themselves our masters do their duty as servants, with their time fully employed, and their pay reduced in accordance with the work done. As an example of the pernicious influence of our Government in the settlement of our country, I am informed that several immigrants arrived by the steamer Pelican, with the intention of settling in British Columbia. A number of them, while their baggage lay on the wharf, made inquiries as to the facilities of obtaining land, the nature and character of our Government, &c. Learning what sort of a Government we had, they moved their baggage on board the steamer Olympia, and went over to the other side, preferring to be strangers among foreigners to settling in a country where their individuality is ignored, and the progress of the country retarded by Government. Men of this class, who pay their way, are infinitley to be preferred to the class which Mr. Alston and the Government intend to bring out at the public expense; for assuredly to follow the Government scheme we will only be adding to the population of the neighboring Territory, at our expense. Nothing short of an immediate and radical change of our present system of Government will satisfy the people in the opinion of

June 24, 1870. ARGUS.

Gen. Spear's Opinion of Gen. O'Neill, the Fenian Leader.

We clip the following from the Toronto *Globe*:

"This movement was entirely O'Neill's. There never was a man fixed better in God's world than he was; he had at his command from 1,500 to 1,800 as good men as ever lived, but he did not treat them properly. He deceived his own officers, for he did not allow them to know anything of it. He was so confident of success that he wanted it to be all O'Neill, and a fool he made of himself. He had some five or six hundred men here; and, if he had managed the affair properly, he might easily have driven back the sixty or seventy men that checked him at Cook's Corners. But instead of that, he advanced without waiting to organize his men. He had the best chance a man could have. He had plenty of good men, any amount of arms and ammunition; and, within ten miles from here, he had eleven of the finest breech-loading field cannons. He had some of the finest officers I ever saw. But he was such a monomaniac on this one subject that he want'd the movement to be all O'Neill, and would not consult any one. He had some little success at Ridgeway in 1866, and that set him crazy; it set his brain beyond doubt."

Gen. Spear denies having any connection with the Fenian movement, and contradicts the statement which went abroad that he had assumed command after O'Neills' capture.

THE banks of New York are at a loss to determine what to do with the enormous amount of national bank notes with which they are inundated. They have fully $10,000,000 of currency which the channels of business do not absorb. In nearly all other financial centers, there exists, relatively, the same state of facts. There has not been a time, in years when there was so much money seeking investment at low interest.

LEGAL.—Judgment has been reserved in the case of an application for power to give Sir Charles Mordaunt leave to sue for a divorce. The Vivian-Waterford divorce case has been ordered to stand over till May 17, to give the Queen's Protector time to consider whether he ought to put the petitioner to the expense of an investigation. It is considered that the Judical Committee will appoint a special sitting to hear the appeal of the Rev. Mr. Jackson in what is known as the Ledbury Scandal Case.

BRAN AS A REGULATOR.—Good, sweet bran is, in ninety nine cases out of a hundred, better than physic, if it is given in time. Let any animal eating bad, mouldy corn-stalks or brittle hay, making it look bad, have some bran to help its poor stomach, and it will soon appear in better plight. When a cow in milk does not do as well as she should on other, food, add some bran. No matter what ails the horse, cow, sheep, or pig, a little bran will do good—but don't feed bran alone for a long time.

A woman's rights advocate insists that divorced women have a right to vote under the fifteenth amendment, which provides that the right of suffrage shall not be denied or abridged on account of race, color or "previous condition of servitude."

THE female judge of a Wyoming police court is reported as severe in her judgments. If a man is up for drunkenness she is given the full extent of the law, and no amount of pleading or promise will soften judicial heart. Then if a sister is caught, there is an end of her sinning, for she is locked up hard and fast and kept in durance vile until she is ready to migrate to other lands, where no female judges are.

The first mention made of modern money is in the Bible—where it speaks of the dove having brought the green back to Noah.

A subterraneous outlet to the Great Salt Lake has been discovered opposite Corinne, and between Fremont and Kimball Islands. The schooner Pioneer, Capt. Hannah, sailing in the vicinity Tuesday, June 7th, was drawn into the opening, which is an immense maelstrom, or stupendous whirlpool, and the descent and circular motion of the water were so rapid and violent that the vessel was made to spin around in it with frightful velocity, and it was only by the high wind prevailing at the time that she was enabled to sail beyond the influence of the charm. Captain Hannah reports that he has no doubt whatever that this opening never before discovered, is the grand outlet of the lake. A party of scientific men will leave Corinne immediately, on the steamer Kate Connor, to investigate the subject.

THE HUDSON'S BAY COMPANY.—In the House of Commons, on May 6, in reply to Viscount Milton, the Attorney-General said the powers of the act of the 2d William and Mary had expired; that the powers conferred by the letters patent Charles II. had not; that the statute of 4th William and Mary had not been acted on; that the Statute of Mortmain was no barrier to the settlement of a British colony; that the Limited Liability Companies' Act did not affect the powers of the Company; that the papers moved for by Sir H. Verney had already been laid on the table; that the cessation of the payment of 5l. per share had not forfeited the Company's charter, because several subsequent Acts of Parliament had recognized it.

The North Pacific railroad bill which passed Congress a few days ago authorizes the company to build the road to Puguet Sound *via* the valley of the Columbia river, with a branch across the Cascade mountains to Puget Sound.

PLEASURE BOATS

FOR HIRE BY THE DAY OR HOUR AT THE Johnson Street Ferry, Bottom of Johnson Street, Victoria, V. I. je25 6m

The Daily Standard.

Saturday, June 25, 1870.

OMITTED.—For want of space, yesterday, we omitted the following paragraph with reference to the Vancouver Coal Mining and Land Company's affairs. From the report of the meeting, the Company are in a prosperous condition:

The Directors of the Vancouver Coal Mining and Land Company have issued their report preparatory to the meeting on May 18. The accounts for the half-year ending December 31, 1869, annexed to the report, show an undivided balance of profit (including £133 0s. 8d. brought forward) of £6,529 5s. 2d. Having regard to the views expressed by several of the shareholders at the last general meeting, the directors have reconsidered the question of the valuation of the stock of coal in the ground, and they have decided on reverting to the former practice of valuing at cost, consequently the balance of profit brought forward from the previous half-year has been rectified. This alteration is one of account merely, for though it affects the balance standing to profit, it does not in any way detract from the real value of the assets or the financial position of the Company. We see by reference to the accounts, that there has been a large sum (£4,029 18s. 1d.) deducted from the profits of the half-year for repairs and depreciation of plant, besides which all the expenditures incurred in the new slope and other dead work for the same period, amounting to £1,776, has been charged against revenue. The directors express their satisfaction with the local management, which has been steadily directed to efficiency and economy; and they look forward to the time when—by the continued exertion of the Company's officers, the employment of more powerful machinery, and by larger sales—further reductions may be effected in the cost of working. The directors recommend a dividend at the rate of 15 per cent. per annum out of the profits of the half-year, which will absorb £6,195, leave £334 5s. 2d. to be carried forward to the next account.
